

Cal Poly Humboldt.

Natural Resource Geospatial

## RaptorMapper Team, Data Providers, and Funding

The products within RaptorMapper could not have been possible without the collaboration, data, and input from a wide host of organizations, agencies, partners, biologists, funders and others. We recognize the invaluable contributions from those many partners.

### The RaptorMapper Team

Bryan Bedrosian - Teton Raptor Center, Wyoming Natural Diversity Database

Jeff Dunk - Cal Poly Humboldt

Josh Gage - Gage Cartographics

Katherine Gura - Teton Raptor Center

Dave LaPlante - Natural Resource Geospatial

Zach Wallace - Wyoming Natural Diversity Database, Wyoming Game and Fish Department

Brian Woodbridge - Cal Poly Humboldt

**The following organizations and individuals have significantly contributed to the success of RaptorMapper and associated products through data sharing, input, review, and analysis. We also recognize the many other funders, organizations, biologists, and technicians that contributed to the many individual studies whose data were shared for RaptorMapper.**

### Funding

This project was funded by the Knobloch Family Foundation and Teton Raptor Center. Knobloch Family Foundation is committed to investments that ensure the conservation of natural ecosystems and Teton Raptor Center is a non-profit organization in Wilson, Wyoming whose mission is to advance raptor conservation through education, research, and rehabilitation.
